

AWARENESS PROGRAMME AGAINST EARLY MARRIAGE

Date: 15th February 2025

An awareness programme against the early marriage system was organized by the Jagannath Singh College Extension Activity Cell at Doyapur Part 2. Dr. Sushmita Mitra, Coordinator of the Extension Activity Cell, led the discussion, highlighting the detrimental effects of early marriage on individuals and society. She emphasized the importance of education and personal development, which are often curtailed by early marriage.

Other faculty members, including Dr. Kaushik Nath, Dr. Nandita Das, Dr. Gangesh Bhattacharjee, and Dr. Dilip Kumar, also shared their perspectives on the issue. They discussed the legal implications, health risks, and social consequences associated with early marriage. The programme aimed to educate students about the negative impacts of this practice and encourage them to become advocates for change within their communities. The active participation of both students and teachers made the event a successful step towards raising awareness about this critical social issue. Total 30 students took part in the programme.
